Grapevine, TX 76051

Dear Patti,

CONGRATULATIONS! The Rotobrush AiR® has been voted #1 in the *Contracting Business.com* HVAC Comfortech 2010 Product Showcase Awards, in the category of Indoor Air Quality.

Among all the entries in the category, our judges felt the product was the most innovative and useful to HVAC contractors who are seeking HVAC controls solutions.

A table tent announcing the award will be delivered to the Rotobrush International booth during HVAC Comfortech 2010, and a *ContractingBusiness.com* editor will visit the booth for a congratulatory photo and video during the show. The product will also be featured in an upcoming issue of *Contracting Business.com magazine* and the video will be featured on the *ContractingBusiness.com* website.

The editors of *ContractingBusiness.com magazine* thank you for participating in the HVAC Comfortech 2010 Product Showcase Awards — and HVACR Week 2010 — and we wish you much success with the Rotobrush AiR®!

Yours truly,

Michael S. Weil
Editorial Director
